

Grill Safety Tips

- Keep the grill clean at all times.
- Check hose integrity and hose connections to make sure gas is not leaking from your grill.
- Never use flammable or combustible liquid with a gas grill. That means don't use liquid that can catch on fire like gasoline or lighter fluid!
- Keep grills away from objects that might catch on fire.
- Enforce a kid-free zone of 36 inches around the grill.
- Never store propane cylinders in buildings or garages.
