

Grocery Store – Locate Items - Tips

Finding the right items:

- Find the right aisle by reading the signs or asking a store employee.
- Make a list beforehand and carry it with you inside the store.
- Locate the right shelf within the right aisle.
- Scan the item titles quickly then read the product details.
- Compare prices by reading the price tags or using the cost per unit information.
- If on a budget use a calculator to keep a running total of your purchases.
- Watch out for emotional “impulse” buys.
